

HUMAN[X]

CYBERSECURITY @ HUMANX

Join experts as they unveil cutting-edge technologies to safeguard digital assets against evolving cyber threats. Don't miss this opportunity to fortify digital infrastructures and ensure global security.

With an agenda informed by groundbreaking proprietary research conducted by HarrisX and HumanX, attendees will leave with confidence and conviction around their AI futures.

FEATURED SPEAKERS

Stephen Schmidt
Chief Security Officer
Amazon Web Services

Tara Murphy Dougherty
CEO
Govini

Charles Carmakal
CTO
Mandiant

Rupal Hollenbeck
President
Check Point Software

WHY ATTEND

- [X] Exclusive Insights**
Dive into real-time threat detection, automated responses, and secure data management across various networks and clouds.
- [X] Tailored Experience**
Uncover how AI enhances various threat intelligence, including identification, protection, and prevention.
- [X] Networking Opportunities**
Connect with cybersecurity experts, industry leaders, and peers through personalized matchmaking and a year-round community platform.
- [X] Actionable Strategies**
Learn how to develop responsible and accountable AI practices in the digital age.

SESSION THEMES

- AI-Driven Threat Intelligence: Exploring how AI enhances threat intelligence capabilities, enabling proactive identification and mitigation of evolving cyber threats in 2025.
- AI Governance and Ethics: Discussing the ethical considerations and governance frameworks surrounding the use of AI in cybersecurity.
- AI-Powered Autonomous Security: Delving into the advancement of autonomous security systems powered by AI, revolutionizing incident response and reducing human intervention.
- Privacy-Preserving AI Security: Addressing the integration of AI in cybersecurity while prioritizing data privacy and compliance with stringent regulations in 2025.

WHO ATTENDS

Chief Executive Officer // Chief Information Security Officer // Chief Product Officer // Chief Strategy Officer
// Vice President, Product // Vice President, Data Science // Vice President, Artificial Intelligence
// Vice President, Risk Management

REINVENTING THE CONFERENCE EXPERIENCE

We started with a blank sheet of paper and 150 conversations with today's business leaders and top VCs. We weren't surprised by the findings: **most conferences are boring.** They're too big, too confusing, too exhausting, and attendees feel like they are constantly missing something.

Even worse, the experience is not worth the investment. Subpar food, glitchy AV and WiFi, lackluster event technology, and obvious pay-to-play speakers leading to a haphazard agenda all impact the single most important aspect of any conference—your ROI.

AT HUMANX, YOU CAN EXPECT:

CONFERENCE THREADING

A threaded programming model, where you live a conference experience completely unique to your sector, function, and needs, but are surrounded by (and at times paired with) industry or functional peers

THOROUGH RECAPPING

On-demand recordings of all sessions, with real-time transcriptions and AI summaries accessible year-round in the state-of-the-art event app

AI PERSONALIZED EXPERIENCES

Personalized, AI-driven suggestions around content, special events, and matchmaking

AI ASSISTANT

"HumanX Memory" which automatically tracks and stores who you met, the companies you spoke with, and which sessions were most helpful

CUTTING EDGE APP

Cutting-edge wayfinding to help locate the people, companies, and content you care about

COMMUNITY

A year-round community of like-minded leaders joining you on this journey

THE HUMANX DIFFERENCE

Built by the team behind Money20/20, Shoptalk, and HLTH, HumanX is not your average conference.

Informed by years of building premier industry conferences, we're rewriting what it means to attend, sponsor, or participate in a conference.
