REINVENTING THE CONFERENCE EXPERIENCE

We started with a blank sheet of paper and 150 conversations with today's business leaders and top VCs. We weren't surprised by the findings: **most conferences are boring.** They're too big, too confusing, too exhausting, and attendees feel like they are constantly missing something.

Even worse, the experience is not worth the investment. Subpar food, glitchy AV and WiFi, lackluster event technology, and obvious pay-to-play speakers leading to a haphazard agenda all impact the single most important aspect of any conference—your ROI.

AT HUMANX, YOU CAN EXPECT:

CONFERENCE THREADING

A threaded programming model, where you live a conference experience completely unique to your sector, function, and needs, but are surrounded by (and at times paired with) industry or functional peers

THOROUGH RECAPPING

On-demand recordings of all sessions, with real-time transcriptions and AI summaries accessible year-round in the state-of-the-art event app

AI PERSONALIZED EXPERIENCES

Personalized, AI-driven suggestions around content, special events, and matchmaking

AI ASSISTANT

"HumanX Memory" which automatically tracks and stores who you met, the companies you spoke with, and which sessions were most helpful

CUTTING EDGE APP

Cutting-edge wayfinding to help locate the people, companies, and content you care about

COMMUNITY

A year-round community of like-minded leaders joining you on this journey

THE HUMANX DIFFERENCE

Built by the team behind Money20/20, Shoptalk, and HLTH, HumanX is not your average conference.

Informed by years of building premier industry conferences, we're rewriting what it means to attend, sponsor, or participate in a conference.
