

HUMAN[X]

# POLICY @ HUMANX

Join top leaders and decision makers as they explore the intersection of AI and public policy, in addition to the role of governance in the age of artificial intelligence.

With an agenda informed by groundbreaking proprietary research conducted by HarrisX and HumanX, attendees will leave with confidence and conviction around their AI futures.

## FEATURED SPEAKERS

**Navrina Singh**  
Founder & CEO  
Credo AI

**Lambert Hogenhout**  
Chief Data & AI  
United Nations

**Richard Schaefer**  
Chief AI Officer  
Dept of Veterans Affairs

**Timothy Galluzi**  
CIO  
State of Nevada

## WHY ATTEND

- [X] Exclusive Insights**  
Explore the critical role of AI in responsible and ethical decision making, streamlining operations, and improving communities.
- [X] Tailored Experience**  
Engage in sessions focused on transparency, regulation, and data privacy as they relate to AI.
- [X] Networking Opportunities**  
Connect with policy experts, industry leaders, and peers through personalized matchmaking and a year-round community platform.
- [X] Actionable Strategies**  
Learn about AI's multipronged role in decision making processes—as well as how to combat bias and protect private information.

## SESSION THEMES

- Ethics:** AI applications raise ethical questions around equity, transparency, and accountability. We will tackle concerns about the potential for bias in AI algorithms and decision-making processes, as well as issues related to data privacy and ownership.
- Climate:** Can we offset carbon emissions and manage natural resources more effectively despite the energy output needed for AI?
- Regulation:** In an increasingly divided world, what can we do to ensure international cooperation in AI standards and regulation to protect human rights worldwide?

## WHO ATTENDS

**Chief Data Officer // Deputy Director for Science and Technology // Director of Digital Strategy // Artificial Intelligence Program Manager // Technology Policy Advisor // Cybersecurity Advisor // Educational Technology Director // Innovation Specialist**

# REINVENTING THE CONFERENCE EXPERIENCE

We started with a blank sheet of paper and 150 conversations with today's business leaders and top VCs. We weren't surprised by the findings: **most conferences are boring.** They're too big, too confusing, too exhausting, and attendees feel like they are constantly missing something.

Even worse, the experience is not worth the investment. Subpar food, glitchy AV and WiFi, lackluster event technology, and obvious pay-to-play speakers leading to a haphazard agenda all impact the single most important aspect of any conference—your ROI.

## AT HUMANX, YOU CAN EXPECT:

### CONFERENCE THREADING

A threaded programming model, where you live a conference experience completely unique to your sector, function, and needs, but are surrounded by (and at times paired with) industry or functional peers

### THOROUGH RECAPPING

On-demand recordings of all sessions, with real-time transcriptions and AI summaries accessible year-round in the state-of-the-art event app

### AI PERSONALIZED EXPERIENCES

Personalized, AI-driven suggestions around content, special events, and matchmaking

### AI ASSISTANT

"HumanX Memory" which automatically tracks and stores who you met, the companies you spoke with, and which sessions were most helpful

### CUTTING EDGE APP

Cutting-edge wayfinding to help locate the people, companies, and content you care about

### COMMUNITY

A year-round community of like-minded leaders joining you on this journey

## THE HUMANX DIFFERENCE

**Built by the team behind Money20/20, Shoptalk, and HLTH, HumanX is not your average conference.**

**Informed by years of building premier industry conferences, we're rewriting what it means to attend, sponsor, or participate in a conference.**
